

Technical excellence in partnership

ExxonMobil have strengthened their commercial vehicle relationship with Mercedes-Benz and now supply the factory fill lubricant for all new Sprinter vans equipped with Diesel engines.

You can ensure that your engine is also protected by fully-synthetic lubricant technology when it comes to servicing.

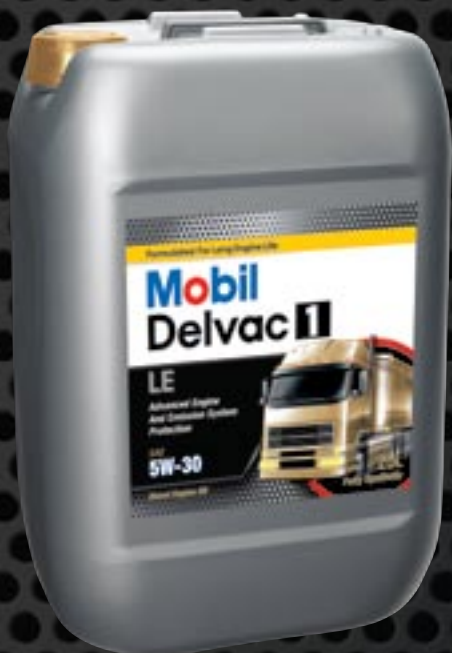

By choosing Mobil Delvac 1 LE 5W-30 you can benefit from exceptional low temperature performance, a low ash formulation to protect emission systems, as well as a lubricant that helps maximize oil drain intervals and with fuel economy potential.

Mercedes-Benz has rigorously tested this lubricant accrediting the prestigious MB-Approval 228.51 and MB-Approval 228.5 – one of the first for a 5W-30 grade oil.

Ask your Mobil Delvac lubricant retailer for more details.
